

ACKURETTA

MATERIAL SAFETY DATA SHEET

Section 1: Identification

Product Name: Ackuretta CURO Tray

Chemical Name/Synonyms: Additive plastic

Application: Methacrylate-based resin 3D printing systems with 385 nm or 405 nm light sources for fabrication of dental spacers.

Company: Ackuretta Technologies Pvt Ltd

Manufacturer: MACK4D
Am Kraftwerk Lippendorf 16
D 04575 Neukiritzsch
Tel.: +49 34342 50 98 62
Fax: 0049 231 5556 30
E-mail: info@mack4d.de
Internet: www.mack4d.de

In emergency call +49 34342 50 98 62

MSDS Date of preparation: 13th of July, 2020

Section 2: Hazard(s) Identification

Classification of substance or mixture according to Regulation (EC) No. 1272/2008:

Aquatic chronic Cat. 2 H413

Pictograms:

Signal Word(s): hazard

Hazard Statements:

Hazard warnings:

H315 Causes skin irritation

H413 May cause long-lasting harmful effects to aquatic life

Safety Tips:

P273 Avoid release to the environment

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P313 Get medical advice/attention.

P501 Dispose of contents/containers in accordance with local regulations.

Other hazards: NA

Section 3: Composition/Information on Ingredients

Reagent	Percentage	EC No.:	CAS No.	REACH Registration No.	Classification according to Regulation (EC) No. 1272/2008	Hazard class and category
Difunktionale Methacrylate	<99	609-946-4	41637-38-1	01-2119980659-17-XXXX	H413	Aquatic Chronic 4
Phosphine oxide	<2	278-355-8	75980-60-8		H317; H361; H411	Skin Sens 1; Repr 2; Aquatic chronic 1

Section 4: First Aid Measures

General information: Immediately remove stained and soaked clothing. If symptoms are present or in case you are in any doubt, seek medical advice. If the person loses consciousness, put them in the recovery position and seek medical advice immediately..

After inhalation: Make sure that there is fresh air. If the product irritates the respiratory tract, consult a doctor immediately.

After contact with skin: Wash out and rinse with plenty of soap and water.
After contact with eyes: In the event of contact with the eyes, immediately remove contact lenses and rinse with running water for 10-15 minutes while keeping the eyes open. Consult an eye specialist as soon as possible.
After swallowing: Never administer something orally to an unconscious person or someone who is experiencing cramps. Consult a doctor immediately. Do not induce vomiting.
The most significant acute and delayed occurring symptoms and impact
Skin contact: May cause an allergic skin reaction.
Information about emergency medical aid or special treatment
Note for the physician: Treat symptomatically.

Section 5: Fire-Fighting Measures

Solvents

Suitable solvents: Water spray, foam, dry fire extinguisher or carbon dioxide.

Unsuitable solvents: Do not use a water jet as an extinguishing agent because this will cause the fire to spread.

Particular hazards arising from substance or mixture

Hazardous decomposition products: Thermal decomposition or combustion products may contain the following substances: Carbon oxides.

Information for fire-fighting

Safety precautions during fire-fighting: No actions should be taken without appropriate training or which are associated with personal risk.

Particular protective equipment for fire-fighters: Wear self-contained breathing apparatuses (SCBA) and suitable protective clothing.

Section 6: Accidental Release Measures

Personal precautions: At work, wear suitable protective clothing, including gloves, safety goggles/face guard, respiratory protection, boots, or other clothing or an apron as appropriate. Suitable respiratory protection in the event of inadequate ventilation.

Measures for environmental protection: Environmental protection measures to prevent discharge into the environment.

Measures for cleaning/collecting: Methods for cleaning: No smoking, sparks, flames or other ignition sources near spillages. Bind leaked material with sand or another inert absorbent. Collect it and fill a suitable disposal bin, then seal securely. Containers with collected spilled material must have the correct hazard labeling. Spillages must be collected and disposed of in accordance with the information in Section 13.

Reference to other sections: Reference to other sections: For information on personal protective equipment, see Section 8. Section 13 contains information about waste disposal.

Section 7: Handling and Storage

Safety precautions for safe handling

Safety precautions during use: Avoid contact with the eyes and skin. Wash contaminated skin thoroughly after handling. The hands and all contaminated parts of the body must be washed with soap and water before leaving the factory premises. Keep away from heat, sparks and open flame. Mechanical suction is required if dust is discharged during handling. Open and handle containers with care. At work, wear suitable safety equipment in the event of longer exposure and/or high concentrations of vapors, spray or mist.

General work hygiene measures: When using the product, do not eat, drink or smoke.

Conditions for safe storage, taking cases of incompatibility into account

Safety precautions for storage: Store in a cool and dry place in a tightly sealed original container. Store at temperatures between 5°C and 30°C. Keep away from frost and direct sunlight. Keep away from hot surfaces, sparks, open flames and other types of ignition sources. Do not smoke.

Specific end uses

Intended end use(s): The intended uses of this product are described as the application in Section 1.

Section 8: Exposure Controls/Personal Protection

Parameters to be monitored: No maximum allowable concentration(s) is/are known for the ingredient(s).

Limitation and monitoring of exposure

Protective equipment

Suitable technical controller: Adequate room ventilation and local aspiration must be ensured. The maximum allowable concentration of the product or ingredients must be observed.

Eye/face protection: Eye protection corresponding to a recognized standard should be worn if a risk assessment shows that eye contact is possible. The following personal protective clothing should be worn: Chemical safety goggles. Wear close-fitting chemical safety goggles or face protection.

Hand protection: Wear protective gloves. In accordance with the data specified by the protective glove manufacturers, it is required while using them to check whether the gloves maintain their repellent properties and to change them as soon as damage is detected. In the case of exposure up to 8 hours, protective gloves made of the following material must be worn: Nitrile rubber.

Other skin and personal protection: Avoid contact with the skin. Wear suitable clothing to prevent possible skin contact.

Hygiene measures: Wash contaminated skin thoroughly after handling. Before removing the clothing, wash contaminated clothing and skin immediately with plenty of water. Immediately remove all contaminated garments and wash before wearing them again. Contaminated work clothing should not be allowed out of the workplace. When using the product, do not eat, drink or smoke.

Respiratory protection: If ventilation is inadequate, suitable respiratory protection must be worn. Wear a protective mask with full face protection and the following filter cartridge: Filter against organic vapors. Highly effective particle filters.

Section 9: Physical and Chemical Properties

Appearance: Liquid

Odor: Ester

Color: Various tooth colors

Melting point: Not determined

Initial boiling point and boiling range: Not determined

Flash point: >250°C

Inflammability (solid, gaseous): Not determined

Upper/lower inflammability or explosion limits: Not determined

Vapor pressure: Not determined

Relative density: 1.12g/cm³

Solubility: Insoluble in water; Soluble in most organic solvents

Viscosity: Approx. 700-1200 Pa s

pH: 6-8

Other information

Molecular weight: 496

Section 10: Stability and Reactivity

Reactivity: No information is available

Chemical stability: Stable at normal room temperatures

Possible hazardous reactions: May polymerize

Conditions to avoid

Incompatible conditions: Reaction with light, risk of polymerization. Keep away from heat, flames and other ignition sources. Do not expose to high temperatures or direct sunlight. Avoid contact with strong oxidizers.

Incompatible materials: Incompatible materials Keep away from radical-forming initiators, peroxides, strongly alkaline substances and reactive metals to prevent exothermic polymerization reactions.

Hazardous decomposition products: Carbon oxides

Section 11: Toxicological Information

Difunktionale Methacrylate (at 100%)

Acute toxicity – oral LD50: >2000 mg/kg, oral, rat

Acute toxicity – dermal LD50: >2000 mg/kg, dermal, rat

Acute toxicity – inhalative LC50: No information available

Caustic/irritant effect on the skin: Negative

Severe eye damage/irritation: Negative

Respiratory tract sensitization: No information available

Skin sensitization: Not sensitizing

Germ cell mutagenicity: Gene-Mutation: Negative

Carcinogenicity: No information available

Reproductive toxicity: Fertility - NOAEL, 1000 mg/kg KG/day, oral, rat F1

Specific target organ toxicity (repeated exposure): STOT - Repeated exposure NOAEL 300mg/kg KG/day, oral, rat

Phosphine oxide (at 100%)

Acute toxicity – oral LD50: No information available

Acute toxicity – dermal LD50: >2000 mg/kg, dermal, rat

Acute toxicity – inhalative LC50: No information available

Caustic/irritant effect on the skin: No information available

Severe eye damage/irritation: No information available

Respiratory tract sensitization: No information available

Skin sensitization: No information available

Germ cell mutagenicity/genotoxicity - in vitro: No information available

Carcinogenicity: No information available

Reproductive toxicity - fertility: Suspected of damaging fertility or the unborn child

Reproductive toxicity - Development: No information available

Specific target organ toxicity (repeated exposure): No information available

Section 12: Ecological Information (non-mandatory)

Toxicity

Aliphatic difunctional methacrylate (at 100%)

Acute toxicity - fish: LC50, 96 hours: 100 mg/l, Brachydanio rerio (zebrafish)

Acute toxicity - invertebrate aquatic animals: EC₅₀, 48 hours: >100 mg/l, Daphnia magna

Acute toxicity - aquatic plants: NOEC, 72 hours: 100 mg/l, Desmodemus subspicatus

Acute toxicity - microorganisms: NOEC, 28 days: >=14.3 mg/l, activated sludge

Phosphine oxide (at 100%)

Acute toxicity - fish: No information available

Acute toxicity - invertebrate aquatic animals: No information available

Acute toxicity - aquatic plants: No information available

Acute toxicity - microorganisms: No information available

Persistence and degradability: The product is not easily biodegradable

Bioaccumulation potential

Difunktionale Methacrylate (at 100%): Distribution coefficient log Kow: 5.30-5.62

Phosphine oxide (at 100%): Distribution coefficient No information available

Mobility on the ground

Difunktionale Methacrylate (at 100%): Adsorption/desorption coefficient - Log Koc: 3.69~3.88 @ 20°C

Phosphine oxide (at 100%): Adsorption/desorption coefficient: No information available

Results of PBT and vPvB assessment

Difunktionale Methacrylate: This substance must not be classified as PBT or vPvB in accordance with the currently valid EU classification criteria.

Phosphine oxide: No information available

Results of PBT and vPvB assessment: No information available

Section 13: Disposal Instructions

Proper disposal/product: Dispose of in accordance with regulatory requirements

Proper disposal/packaging: May be disposed of in accordance with local regulatory requirements

Ecology - waste materials: Avoid discharge into the environment

Section 14: Transport Information (non-mandatory)

UN number: None

Proper UN shipping name: None

Transport hazard classes: No dangerous goods pursuant to transportation regulations

Packaging group: None

Environmental hazards: None

Special precautions for transport: None

Bulk transport in accordance with Annex II of the MARPOL Convention 73/79 pursuant to IBC Code No:

Section 15: Regulatory Information (non-mandatory)

Regulations on safety, health and environmental protection/specific laws for the substance or mixture

EU regulations

Information about Regulation (EC) No. 166/2006 concerning the establishment of a European Pollutant Release and

Transfer Register: Irrelevant

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer: Irrelevant

Regulation (EC) No. 648/2004 on detergents: Irrelevant

Regulation (EC) No. 850/2004 [POP regulation]: Irrelevant

Regulation (EU) No. 649/2012 concerning the import and export of hazardous chemicals: Irrelevant

Restriction on use in accordance with REACH Annex XVII No.: Irrelevant

National regulations

National regulations must also be observed.

Instructions on employment restriction: No information available

Major Accidents Ordinance: Not subject to the German Major Accidents Ordinance.

Solvent Ordinance (31st Federal Immission Protection Ordinance [BlmSchV]): Irrelevant

Storage class: 10-13 Other flammable and non-flammable substances.

Water hazard class (WHC): 1 slightly hazardous to water (WHC 1)

Technical Instructions on Air Quality Control (TA-Luft): Not subject to the Technical Instructions on Air Quality Control

Other regulations, restrictions and prohibition ordinances: None

Chemical safety assessment: A chemical safety assessment was carried out for this preparation; Chemical safety assessments were not carried out for substances in this mixture.

Section 16: Other Information

Text of H and P phrases (number and full text)

H phrases	Text
H315	Causes skin irritation
H413	Toxic to aquatic life with long lasting effects
P phrases	Text
P273	Avoid release to the environment
P302+P352	IF ON SKIN: Wash with plenty of water.
P305+P351+P338	IF IN EYES Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P313	Get medical advice/attention.
P501	Dispose of contents/containers in accordance with local regulations.

Training tips: None

Recommended restriction(s) on use: No special measures are required.

Data sources: REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labeling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC and amending Regulation (EC) No. 1907/2006.

Further information: REJECTION OF LIABILITY We have obtained the information in this data sheet from sources that we consider reliable. The accuracy of expressed or implied information cannot be guaranteed. The conditions or methods for handling, storage, use or disposal of the product are beyond our control and possibly also our knowledge. For these and other reasons, we accept no responsibility and expressly reject liability for any losses, damage or costs that may arise from handling, storage, use or disposal of the product or that may be associated therewith in any way. This Safety Data Sheet was created for this product and may only be used for this product. If the product is used as a component of another product, the information indicated in the data sheet may not apply.

This information is based on our current knowledge and should only describe the product with regard to health, safety and environmental conditions. It must therefore not be construed as a guarantee for any specific property of the product.
